Re: Architectural – Engineering Services General Aviation Terminal Airport Authority Office
Expansion Program.

The City of Naples Airport Authority (NAA) would like to thank you for your January 11, 2008 response to our RFQ advertisement dated December 9, 2007 for the above referenced project. The Airport Authority received six (6) responses from the following firms:

Architectural Network, Inc.
BSSW Architects, Inc.
Cubellis
Erickson Associates
K2 Architectural & Interior Design
SchenkelShultz

The NAA Selection Committee met on February 21, 2008 and we are issuing invitations to the following four (4) firms to send three (3) representatives for an informational meeting on March 5 at 10:00 A.M. in the AOB (Airport Office Building) conference room. You will be given a tour of the General Aviation Facility and will receive two GAT studies and drawings.

Further, the same four firms are invited to send three (3) representatives to make scheduled presentations / interviews on March 20, 2008 at the Naples Municipal Airport in the AOB conference room at the following times:

Erickson Associates, Inc.	1:30 P.M.
Architectural Network, Inc.	2:15 P.M.
BSSW Architects, Inc.	3:00 P.M.
SchenkelShultz	3:45 P.M.

There is a remote possibility that the regular monthly meeting of the Airport Authority, to be held earlier that same day, may last longer than expected. In that case we will start as soon as practical with the interviews and follow the same schedule/order and time limitations. You may check with the front desk at 239-643-0733 around noon that day to see if we are on schedule or not. Your presentation should be no more than 20 minutes followed by a 15 minute question and answer session. This is your opportunity to provide any additional information about your organization, your staff, and your specialized knowledge that you feel may be important to the selection decision process. Go ahead and blow your own horn! Tell us how great you are!

Congratulations to the shortlisted firms. There will be no de-briefing for any firm until the selection process is completed and a contract signed.

Ervin N. Dehn, Jr.
Director of Engineering & Planning
