# Naples Airport Authority: Regular Meeting Minutes for the Noise Compatibility Committee (NCC)

**Thursday, February 26, 2026**

The meeting was called to order by Chair Auron at 9:00 a.m. in the Airport Office Building Conference Room, 200 Aviation Drive North, Naples, Florida.

---

**A. Roll Call**

Committee members present were Chair Chris Auron (Northwest Quadrant), Vice Chair Chuck Berkebile (Active Pilot), John Krol (City Council), Bryant Garrett (Collier County), Cliff Holland (City At-Large), Richard Krawczun (Southeast Quadrant), Julie Kapler (Southwest Quadrant), Andy Reed (County At-Large), and Mary Tatigian (Northeast Quadrant). Staff and Authority Counsel present were Mr. Owens, Mr. Rozansky, Mr. Fagan, Ms. Fletcher, Mr. Lobb, Mr. Warriner, Mr. Gamboa, and Ms. Jaramillo.

---

**B. Pledge of Allegiance**

The Pledge of Allegiance was led by the Chair.

---

**C. Agenda**

Mr. Rozansky noted one addition to the agenda: inclusion of the Noise Report, which had been inadvertently omitted from the original packet. It was also clarified that certain noise monitor data items previously listed would not be presented at this meeting.

**Consensus:** Agenda accepted as revised.

---

**D. Minutes**

**Approve November 6, 2025, NCC Minutes**

A motion was made and seconded to approve the November 6, 2025, meeting minutes.

**Vote:** Approved unanimously.

---

**E. Presentations and Time Certain Items**

**A. Permanent Noise Monitors – Ideagen (formerly Envirosuite)**

Mr. Greg Bracci, Vice President of Ideagen, provided a detailed presentation regarding permanent noise monitoring terminals and their role in enhancing the Airport's Noise Compatibility Program.

Key discussion points included:

- Differences between portable and permanent noise monitors and how both systems complement each other.
- Benefits of permanent monitors for long-term data collection, community outreach, and validation of noise exposure modeling.
- Integration of noise monitoring data with WebTrak and correlation of noise events with aircraft operations.
- Use of monitoring data to support Fly Quiet initiatives, community education, and potential FAA-related efforts.
- Estimated useful life of permanent noise monitors (approximately 15 years).
- Preliminary discussion of installing approximately three permanent monitors initially, with committee members expressing interest in a higher number based on community impact and data needs.

Committee discussion emphasized the importance of empirical noise data to supplement modeling and resident complaints, the potential use of monitoring data to support future FAA petitions, and community engagement in selecting monitor locations.

**Consensus:** The Committee expressed general support for moving forward with permanent noise monitors, with the understanding that the final number and locations would be determined through further planning and staff analysis.

---

**B Part 150 Study – ESA**

**a. Residential Sound Insulation Program**

ESA reviewed the FAA-approved Residential Sound Insulation Program, outlining eligibility criteria, required testing, homeowner outreach, and implementation steps. Five condominium buildings near Runway 5 were identified as potentially eligible, subject to FAA requirements.

**b. 2025 Noise Contours**

ESA presented 2025 noise contours and compared them to the previously approved 2026 Noise Exposure Map. The contours were generally consistent, with slight reductions attributed to fleet changes and recently implemented procedures.

**c. Part 161 Foundation**

Mr. Adam Scholten provided an overview of the history, requirements, and challenges associated with FAA Part 161 access restriction studies. Committee discussion focused on the limited

likelihood of success under current FAA policy, the significant cost and time involved, and the importance of focusing resources on strategies with a higher probability of near-term benefit.

---

**C. State of Noise Abatement – Jessica Fletcher**

Ms. Fletcher provided an update on current noise abatement efforts, emphasizing ongoing community engagement, monitoring of curfew compliance, and coordination with operators to encourage voluntary noise-reducing practices.

---

**D. Follow-up: Results of 1:1 Contact with Persistent Curfew Violators**

Staff discussed continued outreach efforts with operators who repeatedly violate voluntary curfew guidelines and noted improved compliance trends.

---

**E. FSFQ Leaderboard Program – Brad Fagan**

Mr. Fagan presented an update on the Fly Safe, Fly Quiet (FSFQ) Leaderboard Program and its role in encouraging best practices among airport users.

---

**G. Public Comments**

One form was received, but the speaker left due to an appointment. He advised he would send the committee an email message with his comment.

---

**H. Action Items**

No formal action items were taken.

---

**I. Old Business**

**1. NAA Update – Commissioner Crees**

Commissioner Crees provided updates on ongoing noise-related initiatives and coordination with FAA and consultants.

**2. Staff Update – Brad Fagan**

Mr. Fagan summarized staff activities related to noise abatement and community engagement.

**3. Noise Report – Jessica Fletcher**

Ms. Fletcher reviewed the Noise Report and responded to committee questions.

---
